

STUDENT HEALTH FEE WAIVER ATTESTATION ACTIVE DUTY MILITARY MEMBERS

Important:

A waiver application must be submitted online in addition to this attestation form by the 7/31 (fall) or 1/31 (spring) waiver deadline.

The student below has submitted an application with the Harvard University Student Health Program to waive the Student Health Fee. This fee allows students access to almost all services at Harvard University Health Services. The **Student Health Fee** is a separate charge from the **Student Health Insurance Plan**. The Student Health Insurance Plan can be waived with Tricare, or other comparable health insurance.

ELIGIBILITY TO WAIVE THE STUDENT HEALTH FEE

- Students are eligible to waive the Student Health Fee if they are currently on active duty military orders and prohibited from receiving medical care (other than emergency and urgent care) from a facility other than Hanscom Air Force Base.

Note: Prohibited from receiving care means that the student is not allowed to receive any medical care (other than emergency and urgent care) by providers other than those affiliated with the Department of Defense. It is expected that only a few students on active military duty will fit this criteria (e.g., a naval aviator in a flight status). This does not mean the student is prohibited from seeking care due to Tricare insurance policy network limitations, but instead that the Department of Defense has mandated that the student cannot seek non-emergency care from any doctor not affiliated with the Military, including Harvard University Health Services.

→ By signing below, I confirm that the student meets the eligibility criteria presented above and is prohibited from receiving medical care at any facility other than Hanscom Air Force Base.
